

Install Exalate for Jira Cloud

Last Modified on 01/15/2026 7:57 pm EST

Introduction

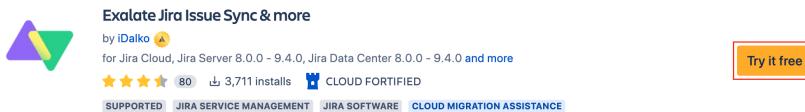

You can install Exalate on Jira Cloud:

- From the Atlassian Marketplace.
- From the App Manager.
- On Docker.

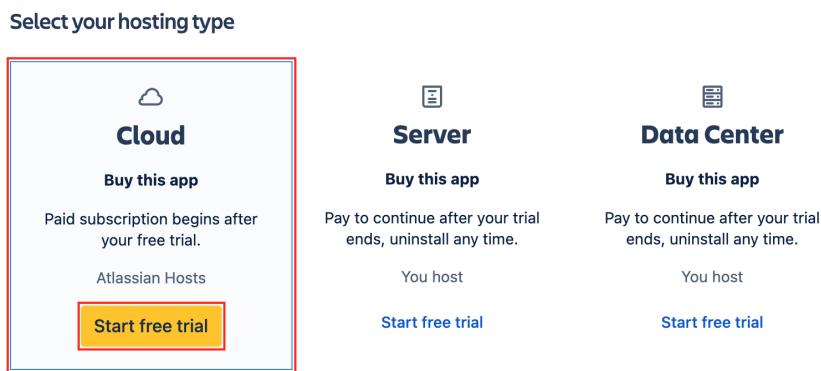

Install Exalate from the marketplace

To install Exalate from the [marketplace](#), follow the steps below:

1. Search for the app on the marketplace.
2. Click **Try it Free.**

3. Select **Cloud** as your hosting type and click **Start free trial.**

4. Choose a site to install the app and click **Start free trial**

Choose a site to start your free trial

Select a site to install this app:

Choose a site

Start free trial Cancel

After this step, you are redirected to your Jira dashboard.

5. Confirm the **free trial**

6. You're all set!

Install Exalate from the App Manager

To install the app from your Jira administration App manager follow the steps below:

1. Log into your Jira instance as an admin.

2. From the top navigation bar click **Apps -> Find new apps**

The screenshot shows the Jira App Manager interface. The top navigation bar includes links for Jira, Your work, Projects, Filters, Dashboards, People, Apps (which is highlighted with a red box and a red number 1), and Create. The main content area is titled 'Discover apps and i' and features a 'Search for apps' input field. To the right, there's a 'POPULAR APPS' section with icons for Slack, Excel, and Google Sheets. Below the search field, a 'Find new apps' button is highlighted with a red box and a red number 2. Other buttons in the sidebar include 'Find new apps', 'Manage apps', 'App requests', 'Promotions', and 'OAuth credentials'. A 'Recommended for you' section is also visible.

3. Type **Exalate** in a search field to find **ExalateJira Issue Sync & more**

Search results

10 results filtered by "exalate" x

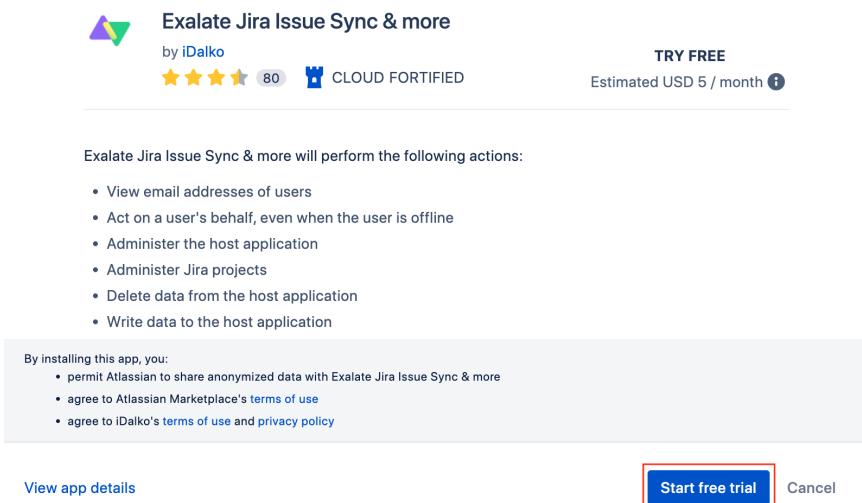

The screenshot shows the search results for 'Exalate' in the Jira App Manager. The first result, 'Exalate Jira Issue Sync & more', is highlighted with a red box. This app is described as a 'Two-way Jira sync tool. Supports Jira to Jira Integration, ServiceNow, Github, Zendesk, Salesforce, Azure DevOps integration & more by iDalko'. It has a 4.5-star rating, 80 reviews, and 3.7k installs. The other two results shown are 'ServiceNow Jira Integration - Exalate' and 'Zendesk Jira Integration - Exalate', both by iDalko and marked as 'CLOUD FORTIFIED' and 'CLOUD SECURITY PARTICIPANT'.

4. Click the app icon for more information and **Try it Free**

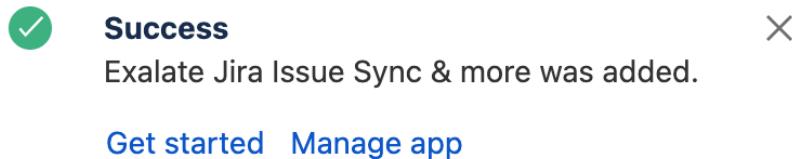

5. Click **Start Free Trial**

Add to Jira

6. You're all set!

Install Exalate on Docker

You can host Exalate for Jira Cloud on your own server. To do so, you need to install Exalate on Docker.

Note: You need to install Docker. Check the [docker documentation](#) for more details.
