

Accept the Connection Invitation in Script Mode for Zendesk

Last Modified on 01/15/2026 7:22 pm EST

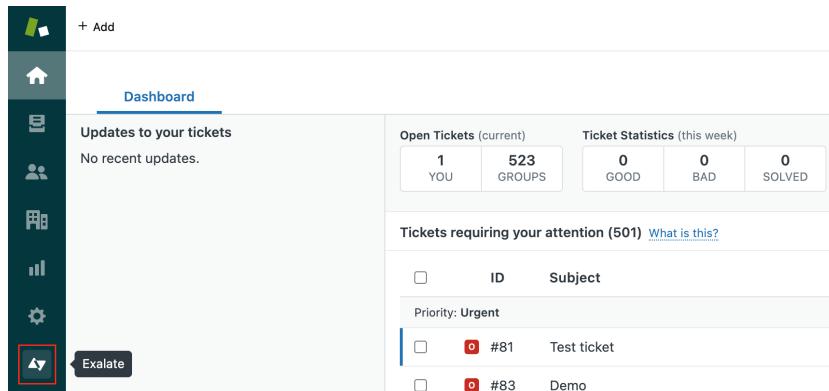

Note: To accept the Connection invitation you need an **Invitation Code**. The **Invitation Code** includes **pre-populated** Connection details such as Connection name, instance short names, and Destination instance URL. You are only required to finish the configuration by accepting the invitation.

Accept the Connection Invitation in Script Mode from Zendesk

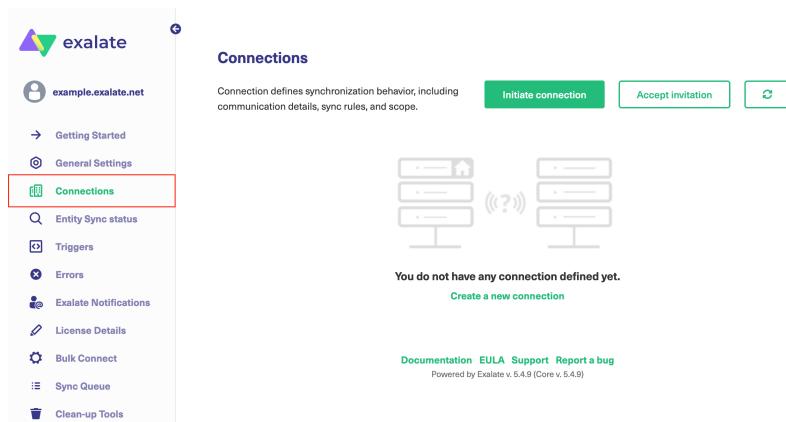

1. Navigate to the **Connections** tab in the Exalate console.

To navigate to the **Connections** tab:

Click **Exalate** in the list of apps.

Click **Connections**.

2. Click **Accept invitation**.

Connections

Connection defines synchronization behavior, including communication details, sync rules, and scope.

[Initiate connection](#)[Accept invitation](#)

3. Paste the invitation code.

Paste the invitation code that you received from the other side.

And click **Next**.

Accept Invitation

Please paste the invitation code, received from your partner

Enter the invitation code

[Next](#)

Congratulations! The connection is set up.

Accept invitation

Congratulations!

Connection is established.

[Configure Sync](#)

What's Next?

After accepting the connection invitation proceed to [configure the connection](#). Remember, with Exalate you need to set up the configuration for both integrating sides independently, depending on your integration requirements.
