How to Sync Due Dates in Asana

This article describes how to synchronize due dates between Asana and other systems.

Due Dates in Asana: Due dates can be set on both tasks and projects to track deadlines.

Outgoing sync (Asana → Remote system)

To send due dates from Asana to the remote system:

```
replica.due = entity.due
```

Incoming sync (Remote system → Asana)

To receive due dates from the remote system and set them in Asana:

```
entity.due = replica.due
```

To set a fix due date in Asana:

```
entity.due = "2025-12-18"
```
