# Exalate isn't Accessible in the Organization Settings

Last Modified on 01/15/2026 2:52 pm EST

Problem

It is not possible to access Exalate because the **Extensions** section is missing in the Azure DevOps **Organization settings** menu.

Pipelines

- Agent pools
- Settings
- Deployment pools
- Parallel jobs
- OAuth configurations

Repos

- Repositories

Artifacts

- Storage

Cause

This is caused by a bug in Azure DevOps: Reported bug

The bug has been confirmed to be resolved. Please raise a ticket on our support portal in case it happens again.

Solution

Use this link to access Exalate:

Product
