

# Votes, Voters, Epic Links don't Sync Automatically

Last Modified on 01/15/2026 2:57 pm EST

## Problem

Jira does not fire any issue event when some of the fields are updated. The following fields won't get an issue update event:

- Votes
- Voters
- Epic link ( for more details please refer to the [Atlassian ticket](#))

## Solution

**Note:** Changing the issue link does not fire an issue event in Jira lower than 7.0.5.

JIRA on-premise does not fire an issue event on an [issue link update](#) in versions lower than the 7.0.5 version.

**Product**

[About Us](#) ?

[Release History](#) ?

You should update any other field on the issue to fire an issue event. It will start the synchronization.
