

# Does Exalate Support Agile Project Synchronization?

Last Modified on 01/15/2026 2:27 pm EST

Exalate provides the following guides to configure the synchronization of the agile project:

Agile boards are typically used when setting up an environment for co-creation where one team is cooperating with another team in an agile way.

Check out these examples:

- How to synchronize epics in [Jira on-premise](#) and [Jira Cloud](#)?
- How to synchronize sprints in [Jira on-premise](#) and [Jira Cloud](#)?
