Jira Cloud - Version 5.15.0

Last Modified on 01/15/2026 2:07 pm EST

Released for Jira Cloud on August 6, 2024

In this release, we've resolved the following issues:

Bug fixes

- XLT-2961 - Exalate app is not visible after reinstallation of the app from the market.
- XLT-5719 - Impossible to save HtmlToWiki in script rules, problem with external scripts.

Security

- XLT-4822 - Ability to read and write files to an exalate node.

Improvements

- XLT-5617 - Improve look and feel of the Archival notification email.
