Jira on-premise - Version 5.0.2

Last Modified on 01/15/2026 12:57 pm EST

Released for JIRA ON-PREMISE on **Aug 10, 2020**

In this release

- JIRANODE-3021 - Avoid sync request being created with NULL replica
- EASE-5188 - Adding logging indicating which user has exalated/unexalated an issue
- Ensure that script context is the same for first sync and non first sync
- Add remote issue url to scripts context
