

# ServiceNow - Version 5.0.28

Last Modified on 01/15/2026 11:57 am EST

## Released for SERVICENOW on **Dec 16, 2020**

In this release, we added a possibility to sync any ServiceNow entity. Also, you will now receive a verification link when registering an Exalate instance. This makes it easier to get an evaluation license, create an Exalate admin account, and also improves security. Moreover, we made some bug fixes, and improved our user interface

## In this release

### Improvements

SNOWNODE-261	From now on, you can sync any ServiceNow entity with Exalate. Check out this article for more information: <a href="#">How to sync any entity in Exalate for ServiceNow</a>
SNOWNODE-259	We updated the process of registering an Exalate instance. From now on, you will receive a verification link to your email. This simplifies the process of creating an Exalate admin account and improves security

### Bug fixes

SNOWNODE-260	Fixed bug where emails with sync error notifications weren't sent
EASE-6506 Product	Fixed bug with Connect not working correctly in Exalate for ServiceNow
