Github - Version 5.18.0

Last Modified on 01/15/2026 10:27 am EST

Released for Github on October 28th, 2024

In this release, we've resolved the following issues:

Bug fixes

- XLT-6057 - AI assist label is present when initiating Basic connection;
- XLT-6027 - Stored XSS in Connect action for Remote Entity URN;
- XLT-5994 - Stored XSS can be applied in Change email field;
- XLT-5764 - Groovy engine shutdown system on runtime error;
- XLT-5691 - Github: httpClient available for OUT (always), IN (only for firstSync=true) scripts;
- XLT-5056 - No warning message in Bulk Exalate when limit of syncs exceeds;
- XLT-5362 - Stored XSS can be applied on Registration page;
- XLT-5638 - Github: can't sync issues with recent comments.

Improvements

- XLT-5974 - Brand-related changes for AI Assist feature;
- XLT-5957 - [AI Assist] Send prompt to the AI service once user clicks Enter.
