# Salesforce - Version 5.22.0

Last Modified on 01/15/2026 10:01 am EST

## Released for Salesforce on February 18th, 2025

**Compatibility with Salesforce Spring '25**

We are pleased to confirm that Exalate version 5.22 has been successfully tested for compatibility with Salesforce Spring '25. Our comprehensive validation process included API alignment, performance benchmarking, security compliance checks, and end-to-end functional testing.

With all compatibility assessments completed, Exalate 5.22 ensures seamless synchronization with Salesforce Spring '25, allowing users to upgrade without disruption. No further action is required for customers currently using Exalate on Salesforce.

Additionally, in this release, we've resolved the following issues and implemented some major security improvements:

## Bug fixes

- XLT-6404 - Better visibility for essential field markers on the registration form;
- XLT-6347 - EULA page links replacement;
- XLT-6380 - Maintaining a uniform display of the main icons.

## Improvements

- XLT-6225 - Enhanced AI Assist with the ability to interrupt prompt processing for better responsiveness and control;
- XLT-1216 - Enhanced security for connections and synchronizations.
