SyncRoom Early Access - Version 2.1.1

Released for SyncRoom on May 28th, 2025

In this release, we've resolved the following issues and implemented improvements:

New Features

- SYN-57 Added Custom Connectors support.

  Custom connector nodes of version 5.25 or higher can be now imported into the SyncRoom.

- SYN-142 Enabled Network admins Adding New Users and share access to their networks.

Improvements

- SYN-176 Improved invitation email copy by adding documentation links and additional details.

- SYN-156 Added a confirmation screen when the connections have been imported successfully.

- SYN-126 Added error handling when importing a node that has already been requested or imported.

- SYN-125 Enabled approved nodes to appear on the Network Visual.

- SYN-99 Added a tooltip showing the node name on hover.

- SYN-153 Added disable state when no connection is selected during connection import flow.

- SYN-133 Improved node URL validation

Bug Fixes

- SYN-175 Fixed Bulk Exalate/Unexalate-related issues.

- SYN-191 Fixed the actions dropdown menu in the Nodes tab.

- SYN-174 Fixed the issue with auto-reload when publishing a new version of the connection configuration.

- SYN-146 Fixed routing between the Nodes and Connection tabs.

- SYN-151 Fixed the issue when removing connection links to the Networks page.
